SUMMARY

M.Tech CS student at SRM Chennai with a full-stack development background and a growing interest in cloud infrastructure and how systems scale in production. I've built production-grade web applications, worked with AWS infrastructure, and shipped AI-powered systems under pressure — now I'm connecting those dots into scalable, automated systems. I care about how software actually runs in the real world, not just how it's written. Looking for a role where I can build, learn, and gradually take ownership of how systems are delivered and run.

SKILLS

Languages — Java , JavaScript, Python, TypeScript

Front-End Frameworks — HTML5, CSS, JavaScript, React.js, Next.js 14, Redux, Tailwind CSS, Thymeleaf

Back-end Frameworks — Node.js, Express.js, FastAPI, Spring Boot 3.5.0 (Java 25), JWT Authentication, OAuth2

Database — MongoDB, MySQL, PostgreSQL, H2 Database

AI & Data Visualization — OpenCV, TensorFlow, Streamlit, Plotly, Pandas, Web Speech API

Developer Tools — Git & GitHub, MongoDB Compass, Postman, Netlify, Vercel, Render, Stripe & Razorpay API

Soft Skill — Team Collaboration, Communication, Leadership, Adaptability & Quick Learning, Product Planning

PROFESSIONAL EXPERIENCE

EduSkills Foundation 01/2026 – 03/2026
Cloud Business Application Intern Chennai
- Worked with AWS cloud business application services including Amazon SES, Amazon Pinpoint, and Salesforce on AWS.
- Explored Generative AI integration and VMware-based cloud solutions during internship training.
- Gained hands-on exposure to enterprise cloud workflows and business application deployment concepts.

Webmyne Systems Pvt. Ltd. 12/2024 – 03/2025
Trainee Web Developer Vadodara
- Developed responsive frontend components using React.js and Tailwind CSS.
- Worked on backend API integration using Node.js and Express.js.
- Collaborated using Git and GitHub workflows in a team-based development environment.
- Built and tested MERN stack modules for real-world web applications.

byteXL TechEd Pvt Ltd. 05/2024 – 07/2024
Summer Internship Vadodara
- Learned Python programming fundamentals, Data Structures & Algorithms, and web development concepts.
- Strengthened problem-solving and aptitude skills through hands-on assignments and training modules.

PROJECTS

Kaam247 – Service Marketplace & Workforce Management Platform
Cofounder | MERN Stack, React.js, Node.js, MongoDB
- Co-founded a full-stack service marketplace connecting users with local providers; contributed to frontend/backend using React.js, Node.js, Express.js, and MongoDB.
- Designed dashboard modules for service listings, booking management, authentication, and collaborated on product planning and UI/UX improvements.

LinguaVerse AI – Smart Government Scheme Discovery Platform
MERN Stack, Next.js 14, TypeScript, FastAPI (Python), PostgreSQL
- Built a full-stack AI platform for scheme discovery via natural language (text/voice in Hindi/English/Hinglish); developed SchemeMatch AI (reverse eligibility engine) and VoiceScheme AI (Web Speech API).
- Implemented FormFriend AI for auto-filled PDFs and an interactive Recharts dashboard visualizing match scores across 8+ schemes (PM-KISAN, Ayushman Bharat, etc.) with a responsive dark UI.

Libraro – Enterprise Library Management System
MERN Stack, React.js, Node.js, Express.js, MongoDB, Stripe API
- Built a dual-portal (Admin/Student) library platform with JWT authentication, real-time inventory tracking, and automated overdue alerts.
- Implemented QR-based instant book checkout, AI-powered book recommendations, waitlist automation, and Stripe payment processing for fine calculation.

Hospital Management Information System (MIS) with Integrated Store
MERN Stack, MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Razorpay API
- Built role-based hospital platform (patients, doctors, staff, admins) with patient registration, doctor scheduling, appointment booking, and EMR management.
- Integrated in-hospital pharmacy store with Razorpay payments and developed dashboards for doctors (appointments/prescriptions) and admins (inventory/billing/reports).

ACHIEVEMENTS

LinguaVerse: Multilingual Generative AI Hackathon 03/2026
SRM IST
- Participated in a generative AI hackathon focused on multilingual solutions, building a voice-first platform to bridge the digital divide for non-English speaking citizens.
- Created LinguaVerse AI with Next.js, FastAPI & Web Speech API – a voice-enabled government scheme discovery platform supporting Hindi/English/Hinglish.

Hack2Health Hackathon 02/2026
SRM IST
- Secured 5th position in a competitive healthcare AI hackathon focused on medical image processing and clinical NLP applications.
- Developed AI-powered backend services for medical image analysis and NLP-based clinical diagnosis support using Python and deep learning frameworks.

SRM Techno Hackathon 2026 – AI for Social Good 01/2026
SRM IST
- Won first place among 50+ teams in a 24-hour national hackathon focused on AI for disaster management and social impact.
- Built DisasterEye – an AI satellite damage assessment tool using OpenCV, TensorFlow & Streamlit that generates heatmaps and resource priority reports.

AI/ML Healthcare Hackathon 2024 07/2024
Parul University
- Participated in this AI/ML myOnsite Healthcare Hackathon 2024 by MedinovAI at Parul University, contributing as a front-end developer.
- Built Dermtech, an Angular-based diagnostic web platform that integrates user authentication and a prediction service for skin disease detection.

EDUCATION

SRM Institute of Technology 08/2025 – Present
Master of Technology (M.Tech) in Computer Science & Engineering Chennai, Tamil Nadu
CGPA: 7.54/10

Parul University 06/2021 – 06/2025
Bachelor of Technology (B.Tech) in Computer Science & Engineering Vadodara, Gujarat
CGPA: 6.72/10

P. P. Savani School 04/2019 – 03/2021
Higher Secondary Certificate (HSC) - 12th (PCM) Ankleshwar, Gujarat
Percentage : 72%

Swami Vivekanand Academy 04/2009 – 03/2019
Senior Secondary Certificate (SSC) - 10th Ankleshwar, Gujarat
Percentage : 71.16%

CERTIFICATIONS

Web Development Bootcamp (CODEHELP - By Love Babbar)

Cyber Security Essentials (Cisco - Networking Academy)

Foundation of Cyber Security (Authorized by Google and Certified by Coursera)

Geodata Processing using Python and Machine Learning (IIRS, ISRO)

Responsive Web Design (FreeCodeCamp)
